

# KING HOUSE DENTAL GROUP & ORTHODONTICS

In regards to the current COVID-19 situation, Dr. Tatevossian and the rest of the team at King House Dental Group would like to assure you that the health and safety of our patients remains our top priority. As a healthcare facility, we consistently follow the guidance of the CDC and OSHA, with the concept of Standard and Universal Precautions. In addition to these policies, we are taking extra measures to protect our community during this time. This includes the following:

1. We ask that any patient and/or staff member that has shown symptoms of illness do not come to the office. If you have an upcoming appointment, please call us and we can get your appointment rescheduled.
2. Each member of our staff is to thoroughly wash their hands with soap and warm water, upon arriving at work, as well as throughout the day.
3. New gloves and masks are used for every patient and used protective equipment is discarded in the treatment room, to prevent possible contamination.
4. We are asking each patient, as they enter, to utilize the hand sanitizer we have provided before we proceed with check-in and encouraging frequent handwashing with soap and warm water.
5. We use disposable plastic barriers on the surfaces in the treatment rooms and the barriers are discarded and replaced after each patient.
6. We are disinfecting all common areas, such as the reception area, check-in windows, desks and restrooms frequently and with special focus on the most commonly touched surfaces like handles, toilets, door knobs, light switches and countertops. We use CaviCide and CaviWipes, which is a hospital-grade disinfectant. It is a tuberculocidal, bactericidal, virucidal and fungicidal solution that we use regularly in the office.
7. We are encouraging our patients and staff to avoid touching their faces and notify us immediately if they have any symptoms.
8. We are asking anyone that has travelled internationally within 45 days to please not come to the office and contact us immediately.

Our office will remain open during regular business hours and we will continue to see our patients as scheduled. If at any time this changes, we will notify our scheduled patients to the best of our ability. We appreciate your continued trust, support and cooperation in our efforts to keep our patients and community worry-free, while taking care of your dental needs. We are happy to answer any questions you may have regarding our disinfection and sterilization policies, please do not hesitate to call our office at (909)792-5000.
