

#### **ILLUMINIZE PEEL®~**

*will reveal beautiful skin, natural glow and radiance with no-downtime!* The Illuminize Peel is the ideal treatment before any special event. This peel improves clarity, color and skin texture while tightening the skin and creating an overall youthful and fresh look. Your skin will look rejuvenated, glowing and ready for the Red Carpet!

#### **VITALIZE PEEL®~**

*the perfect rejuvenator, great for all skin types.* The Vitalize Peel, with its unique combined blend of Vitamin A, AHAs, and Resorcinol, is the ideal treatment to refresh your skin and have a clean slate to work with. Some may experience a light skin peeling after two days which can be controlled entirely with an appropriate moisturizer. This lunch time peel in days to follow will leave your skin radiant and glowing for the next month following!

#### **REJUVENIZE PEEL™~**

*take the Vitalize Peel to the next level.* This unique medical peel is the deepest of the SkinMedica Peels. The Rejuvenize Peel offers extraordinary exfoliation revealing fresher, healthier skin. This peel is for moderate to severe skin conditions including photo damage, melasma and hyperpigmentation, wrinkles, acne and acne scarring.

## *Healthy skin*

HEALTHY SKIN CONTRIBUTES TO A YOUNGER, MORE VIBRANT APPEARANCE, BUT AGING, PHOTODAMAGE, AND SOME HEALTH CONDITIONS CAN LEAVE YOUR COMPLEXION LOOKING SALLOW, HYPERPIGMENTED, AND LINED BEFORE ITS TIME. ALLOW OUR PROFESSIONAL SKIN CARE CONSULTANTS TO ADDRESS YOUR CONCERNS AND GUIDE YOU IN ACHIEVING HEALTHY, MORE YOUTHFUL SKIN. SCHEDULE AN APPOINTMENT TODAY FOR A VISIA SKIN CARE ANALYSIS AND PERSONALIZED ASSESSMENT TO DISCUSS YOUR BEAUTY AND SKIN CARE GOALS. TAKE THIS OPPORTUNITY TO LEARN MORE ABOUT THE PROFESSIONAL PRODUCTS AND TREATMENTS USED AT THE PEER GROUP SKIN CARE CENTER AND LET US SHOW YOU HOW TO "GET YOUR GLOW ON" BY DISCOVERING YOUR MOST RADIANT LOOKING SKIN.

## SERVICES OFFERED

---

### **MICRODERMABRASION~**

*an exfoliating technique that gently removes dead tissue and other debris from the outermost layer – or stratum corneum – of the skin, leaving it more supple and vibrant.* This procedure is noninvasive, painless, has no down time and may be done alone or in combination with other treatments for enhanced results. You will see a decrease in fine lines, age spots and superficial imperfections.

### **CLARIFYING CLAY MASQUE~**

*a gentle exfoliating, non-drying masque that combines the highest quality natural earth clays, botanicals, and minerals to decongest pores and lift out impurities while healing and calming the skin.* A great alternative for pregnant or lactating women who cannot have a chemical peel. This treatment can be customized and combined with chemical exfoliation for enhanced results.

### **VITAMIN C FIRING MASQUE~**

*designed to tighten and detoxify skin while restoring a firm, youthful, radiant complexion.* This treatment, rich in Vitamin C and amino acids, exfoliates the skin while defending against free radical attacks. Vitamin B5 replenishes hydration while allantoin calms and soothes sensitive skin. A great alternative for pregnant or lactating women who cannot have a chemical peel. This treatment can be customized and combined with manual and chemical exfoliation for enhanced results.

### **OBAGI BLUE PEEL RADIANCE™~**

*brings instant radiance, toning, and smoothing to your complexion.* This gentle peel provides superficial exfoliation to improve complexion brightness and decrease visible hyperpigmentation associated with photodamage and aging.

### **ACID-FREE PEEL~**

*a deep physical exfoliation technique that leaves the skin smooth and very soft.* Based on individual skin care needs, this treatment may be preceded with an enzymatic treatment to loosen dead cellular surface debris to facilitate exfoliation. Additionally, the Acid-Free Peel may be followed with a cryogenic treatment to firm skin, tighten pores, and provide comfortable, cooling antibacterial action as well.

### **PIGMENT BALANCING PEEL~**

*a skin brightening treatment developed to reduce hyperpigmentation and dramatically improve the tone and texture of photodamaged and aging complexions, as well as pigmentation resulting from inflammatory acne.* This peel combines high performance brightening and inflammatory agents that accelerate cellular renewal. This treatment can be customized and combined with physical exfoliation for enhanced results. This peel may be completed with Cryotherapy (CO2) to increase the rate of cellular turnover.

### **MICROPEEL™~**

*a 3-step process combining both physical and chemical exfoliation techniques to visibly reduce signs of aging and photodamage, giving skin a renewed texture and glow.* Physical exfoliation are initially performed to remove excess cellular debris from the skin. This is followed by the application of a peel agent selected specifically for your complexion and skin care needs. This step stimulates exfoliation and accelerates cellular renewal. The peel is then completed with

Cryotherapy (CO2) to increase the rate of cellular turnover as well as firm skin, tighten pores and provide a comfortable, cooling antibacterial action.

### **MICROPEEL™ PLUS~**

*employs unique peeling solutions designed specifically for the treatment of acne-prone complexions and skin with significant evidence of photodamage and aging.* For acne, this treatment provides significant surface exfoliation, penetrates deeply into pores to decrease bacterial load, reduces hyperpigmentation that occurs with blemishes, and may provide an interval of acne control and/or clearing. For those concerned with wrinkles, discoloration, and rough surface texture, the MicroPeel Plus can visibly reduce these signs of aging and refine the skin for a more youthful appearance. Some light, noticeable peeling may occur for up to 5 days posttreatment.

**EACH OF THESE CORRECTIVE TREATMENTS CAN HELP YOU TO ACHIEVE YOUR SKIN CARE GOALS WITH MINIMAL DISCOMFORT AND LITTLE, IF ANY, DOWNTIME. YOU WILL SEE GREAT RESULTS AFTER JUST ONE PEEL AND SIGNIFICANT RESULTS AFTER A SERIES OF PEELS.**
