• After 2-3 hours you may begin using your postoperative drops.
• No napping day of surgery until bedtime.
• When taking the Pred-Gati and lubricating drops be sure to separate the drops by 5-10 minutes so each can absorb into the eye(s).

Pred-Gati
(Shake bottle before administering drops).
Use one drop 4 times per day for 1 week and then 2 times per day for 1 week and then stop.

• To help you remember when to take your drops, please refer to the chart provided.
• You must wear the shield or goggles at bed time (or when napping) for two weeks.
• No swimming in lakes, oceans, rivers, swimming pools or hot tubs for two weeks.
• Lubricating drops are contained in your drop kit. Use these drops often, your eyes will likely feel dry, scratchy, or irritated. If you need additional drops, we recommend Preservative Free Blink Tears.
• Always gently pull down on the lower lid to instill your drops. Try not to touch the bottle on your eye.
• From 5:00 pm on the evening of surgery until 7:30 am the next morning, you can reach our doctors by calling:

Sioux Falls, SD  (605) 366-8255
Fargo, ND  (701) 566-5390
Bozeman, MT  (406) 219-0700

If at any other time you have questions or concerns you can dial the number listed above and you will be directed to an on-call physician.
