MEDICAL AESTHETICS

## LOOK GOOD, FEEL GOOD

Our OB/GYN's have over twenty years of experience serving and educating patients. Over the years, many patients have sought our advice when choosing preventative and corrective treatments. We combined our professional experiences with those of Laurie Goode from The Retreat Day Spa, a trusted and experienced aesthetician, to create the clinical results you are seeking.

Together, with our appreciation for the aesthetic concerns at all ages, we chose service offerings based around the common conditions that both women and men experience. We've carefully selected our technology based on their safety profiles with proven scientific results and designed a consultation process around the patient's goals. We made it possible to serve all of the needs of our patients inside and out.

## OUR COMMITMENT TO YOU

Educate on what's best for you, based on your health history, lifestyle needs and goals.

Never upsell you on unnecessary services and products.

Refer you to one of our qualified specialists when our services are not best suited to meet your needs.

Provide the most advanced, well-studied treatments and skincare while maintaining safety.

Provide high physician involvement, oversight and approval.

Reward you for your patronage. Build a long lasting relationship with you to meet your skin care goals.

## FREE CLINICAL CONSULTATION

Your Clinical Consultation is the most important part of each cosmetic treatment. Our goal is to empower you to feel confident in our technology and skills. Your FREE visit will include a personalized session to evaluate your goals, review your skin and health history, and recommended treatment options.
