KHLOÉ KARDASHIAN

Weight loss explains some of the changes in the 34-year-old, but Denver plastic surgeon Manish H. Shah also believes she had a nose job: "The tip of her nostrils is smaller and lifted." And while she's said that fillers made her "look crazy," he thinks she may have tried them again in her lips.

Dr. Shah believes the actress, 32, has had both a nose job and "lip augmentation," noting that many of his patients bring in her picture as an example of who they want to look like. Dr. Miller thinks she's also had fillers in her lips and cheeks.

ASHLEE SIMPSON

The singer, 34, famously denied her nose job in 2006, but later acknowledged it was "a personal choice." Dr. Miller thinks she may also have had fillers or a chin implant, while Dr. Shah says her work was well-done: "She looks better!"
