Crowning achievements

At this premier practice in the nation's capital, patient luxuries abound, including digital technology, computer/e-mail access, spring water, fruit juice, pillows, warm blankets and hot towels. In addition, 16 state-of-the-art treatment suites offer iPods to dial up music by artist, title or genre. "We also have our own on-site laboratory, which enables us to expedite and customize results," agree the doctors at the Washington Center. "And just as big a drawing point for patients is our attentive, highly trained support staff, as many have worked here for 20 years. Together, our goal is to attain beautiful, luminous teeth that really make a smile sparkle."
